

GAYAM SAI KOWSHIK REDDY

Data Analyst

+91-9502416719 | gayamkowshik@gmail.com | LinkedIn | GitHub | NIT Raipur

Professional Summary

Data Analyst skilled in SQL, Python, Power BI, and Tableau, with hands-on experience building predictive models and translating complex datasets into actionable business insights. Strong foundation in statistical analysis, machine learning, and end-to-end data pipelines, with growing expertise in deep learning and computer vision.

Experience

Data Science Intern

Jun 2026 – Jul 2026

AD Info

- Built and evaluated a Heart Disease Prediction model end-to-end, covering data preprocessing, feature engineering, and model selection using Python and Scikit-learn.
- Validated model performance using accuracy, precision, recall, and F1-score to ensure reliable predictions on clinical data.

AI/ML Program

Jan 2025 – May 2025

IIT Patna AI/ML Hub

- Progressed from ML fundamentals to advanced topics including Neural Networks and Deep Learning, building toward applied skills in RAG and API integration.
- Worked hands-on with Python, Pandas, and Scikit-learn to apply core concepts through guided projects and exercises.

Key Projects

Election Result Analysis Dashboard — Power BI · DAX · SQL

- Designed a real-time Power BI dashboard analysing election results across constituencies, with dynamic filters for region, party, and vote share trends.
- Built DAX measures and interactive visuals to surface win margins, turnout patterns, and seat-wise comparisons for faster decision-making.
- Modelled and cleaned multi-source election data in SQL to ensure accurate, drill-down-ready reporting for stakeholders.

Real-Time Gesture Recognition System — MediaPipe · OpenCV · Python

- Designed and deployed a real-time pipeline capturing and classifying hand-gesture landmark data at sub-100ms latency across 10+ gesture classes.
- Conducted edge-case testing across variable lighting and hand orientations, validating system robustness for production-grade use.

Technical Skills

Query & Data: SQL, Python

Analytics & Statistics: EDA, Descriptive Statistics, Feature Engineering, Hypothesis Testing, RFM Segmentation, Anomaly Detection

ML & Modelling: Logistic Regression, Random Forest, SVM, SMOTE, Scikit-learn, Cross-Validation, Hyperparameter Tuning

BI & Visualisation: Power BI, Tableau, Matplotlib, Seaborn, Excel

Databases: MySQL, PostgreSQL

Tools & Platforms: Jupyter Notebook, Google Colab, Git/GitHub

Education & Certifications

B.Tech – Electronics & Communication Engineering

2023 – Present

NIT Raipur • CGPA: 7.22

- Relevant Coursework: Probability & Statistics, Signal Processing, Data Structures

AI/ML Certificate Program

Jan 2025 – May 2025

IIT Patna • Neural Networks, Deep Learning, CNNs, Computer Vision

CBSE Class XII

2021 – 2023

Happy Valley School, Tadepalli • 89.2%

Achievements & Recognition

- Top 7% nationally in Algouniversity inter-collegiate coding competition across IITs & NITs (Sep–Oct 2024).
- Created 20+ dashboards across platforms including Excel, Power BI, and Tableau for varied business use cases.
- Core Coordinator, Sanskriti Cultural Committee — led cross-functional teams for 3 consecutive years.
- Campus Ambassador, Devtown — onboarded and mentored 2 student developer cohorts.
